

ACK_CompleteDirectiveWith
TemperatureOutOfRangeError

```
graph LR; A["ACK_CompleteDirectiveWith  
TemperatureOutOfRangeError"] --> B["TemperatureSave"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text "ACK_CompleteDirectiveWith" on the top line and "TemperatureOutOfRangeError" on the bottom line. A dark blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text "TemperatureSave".
