

FreeAcpResponse_

```
graph LR; A[FreeAcpResponse_] --> B[HeapletFree]; B --> C[FindBlock_];
```

A flowchart with three rectangular boxes connected by arrows. The first box, 'FreeAcpResponse_', is shaded gray and has a black border. A blue arrow points from its right side to the second box, 'HeapletFree', which is white with a black border. Another blue arrow points from the right side of the second box to the third box, 'FindBlock_', which is also white with a black border. The boxes are arranged horizontally and are of equal size.
