

ACK_CompleteDirectiveWith
TemperatureOutOfRangeError

```
graph LR; A["ACK_CompleteDirectiveWith  
TemperatureOutOfRangeError"] --> B["TemperatureSave"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'ACK_CompleteDirectiveWith' on the first line and 'TemperatureOutOfRangeError' on the second line. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'TemperatureSave'.

TemperatureSave
